

Harris County Public Health (HCPH)  
is providing **FREE** testing across  
the county to residents

# GET TESTED! It's Free!

To sign up for surge testing visit:  
[hcphtx.org](http://hcphtx.org) or [doineedacovid19test.com](http://doineedacovid19test.com)  
You can also call 832-927-7575

## RESULTS

Once you are tested, results from the surge testing sites will take 3-to-5 days to process.

You will receive an email notification when your test results are ready. Results can be found on the patient portal you used to register.

## As you wait for your results:

- Stay home and self-isolate, especially if you are sick
- Practice social distancing (6 ft/2 m) and wear a face-covering
- For more information and the latest COVID-19 guidance, please visit [www.hcphtx.org](http://www.hcphtx.org)

## NEXT STEPS

If your test is negative, continue to monitor yourself for symptoms, stay home if you are sick, practice prevention measures (wear a mask and stand 6 ft/2 m away from others), and wash hands often.

If your test is positive, you will receive a call from your local health department. A public health employee will ask you several health-related questions (you may be called more than once).

Public health employees will also ask you about the people you have had contact with in the past 14 days, including names, phone numbers and other contact information. **We will not share your identity with them.** The contacts you identify will receive information on free testing and COVID-19 guidance.

**Callers from the health department will never ask for banking information, social security numbers, or your legal status.**

DID YOU TEST  
**NEGATIVE?**

DID YOU TEST  
**POSITIVE?**

✓ **Health information is kept confidential** and they will not release your information to your work, school or other individuals who are not required to know. It is important that you are truthful and honest with the individual who calls you because they are trying to prevent further spread of COVID-19 in the community.
